

Be part of the direct booking revolution ^{3.0}

Redirect OTA bookings to your website through the Power of artificial intelligence

Reduce cost of sale while you increase direct booking conversion by 10x

No monthly fees or commitments

The Start-up

Who gives the advantage back to Hoteliers

We came up with an innovative artificial intelligence solution to combat dependence on OTAs and developed one of the best tools to turn your website into a Direct Reservations Generator.

Conscious of the market power of OTAs with bigger budgets and powerful sales tools, we wanted to find a way to level up the Hotel's game plan to help them increase their Direct Sales and Booking Conversion with no upfront costs.

Instead of re-inventing the wheel, Rate Match's solution incorporates all that the OTA taught us. A proprietary algorithm is added to the hotel's website and works to shift OTA market share to the hotel directly resulting in significant commission savings.

Rate Match is a **technology provider** dedicated to the **hotel industry**

What we **Do**

We use artificial intelligence and machine learning to create tools that help hoteliers to boost their direct booking and regain control over their distribution Date of stay

o⇒o × ×

Our main focus: **Rate Match**

OTA's offer internet rates while regular channels including hotel's website offer public rates

Fact : Hoteliers lost control over their distribution

Hotel industry **main problem** Why do **travellers prefer** booking with OTAs ?

Advanced marketing

OTAs attract qualified traffic through a sharp & costly marketing strategy

Convenience & Accessibility

OTAs give customers all information needed to book a hotel in several languages and currencies

Attractive offer

OTAs often lead the online market with the best rates and availabilities

Easy booking process

OTAs platforms are simple, ergonomic, and easy to book

Rate Match : One-stop shop custom solution

Build & update a smart website

Regain travellers confidence

Display all rates and offers available

Empower

Rate Match technology to offer competitive rates

Rate Match : **One solution**, 3 tools combined Our 5 step approach **C.I.C.M.C**

Problem #1: Why do travellers feel more comfortable to browse on OTAs' platforms.

Most hotel websites lack accurate & updated data

Which is a determining factor for consumers who book their hotel online

75% of users will judge hotel's credibility based on their site's design. Even if hotel has acquired a 5-star rating on review websites like TripAdvisor or Yelp, people expect to be able to find hotel's website to get more information.

According to research from Stanford $\ \mathcal{P}$

J .

Most hotel websites are not user-friendly

Their mobile version notably

\checkmark

96% of consumers wsay they've accessed sites that were clearly not designed for mobile devices

Responsive websites turn visitors into customers, according to a study conducted by Sterling research and SmithGeiger for **Google**

-5

Most hotel websites have 1 to 3 languages only

While OTAs present every property with at least 30 languages

72,1% of people prefer to browse in their own language

Foreign guest are more likely to book on OTAs in their languages.

Rate Match solution

Benefits of a price comparison tool developed by Rate Match

庙 Hotel Side

Clearly display internet rates on hotel website

Create a trusted relationship with customers

Prove that hotel website is competitive comparing to OTAs

With a unique real time snapshot proof technology

Redirect potential customers to the direct booking channel

Create a trusted relationship with customers

Å Customer Side

Find reliable information to book with confidence

Get informed directly by the hotelier

Save time in booking journey

A few seconds to find the best deals to book a hotel

Book directly at the best price

No intermediaries

Problem #3 : Why do travellers always get the best deals on OTAs platforms

OTAs create **"internet rates"** to get instantly a **competitive advantage** for their channels

Internet disparities

Public rates are sent by hoteliers to their distributors (OTAs) 🚫 Internet disparities

Distributors manipulate the rates and offers to get **the best available deals** on their platforms and undercut hotel website Internet disparities

The genius twist is automated through algorithms and creates undetectable offers only available on OTAs. This are **internet rates**

How internet rates were born?

\oplus

The Sponsor Discount

OTAs reduce their margin to display **attractive deals**

Ċ

The Partner Offer

OTAs display & sell more attractive deals from **B2B partners**

The Smart Flex Offer

OTAs' algorithms automatically change non-refundable rates for more flexible conditions for the same price

$\mathbf{\widehat{\diamond}}$

Fidelity Programs

Mobile rates : -10% Genuis rates : up to -20% Dynamic rates : up to -10%

Added Values

"Free breakfast & Free upgrade" consist in selling an upgraded room and meal plan for a cheaper price
